

# NETSTOCK

## Sensio Lighting is shining a light on inventory with Netstock

**Company** Sensio Lighting  
**Industry** Lighting Solutions

**Location** UK  
**ERP** Sage 200 ERP

Sensio Lighting is a family run business with over 15 years experience and knowledge of providing high-quality LED lighting to the kitchen, bedroom and bathroom market.

### \ Challenge.

Inaccurate and time-consuming spreadsheets.

### \ Solution.

Netstock integrated with Sage 200 ERP.

### \ Result.

Improved inventory performance.

### Improved inventory performance

“With the introduction of Netstock, we are now able to see all inventory information in one easy-to-use dashboard. We can see the total stockholding daily, and easily identify where we can reduce over-stocks,” said Nicola Ormsby, Supply Chain Planner. This increased inventory visibility provides many other benefits. Nicola continues, “The potential stock-outs are invaluable as we can proactively react to any issues that may arise and action them easily. Reacting to stock-outs before they occur was something that was almost impossible to do without Netstock.”

“We now have the ability to focus on poor-performing lines and discontinued lines to free up money tied up in excess stock. We also have the ability to look at supplier scorecards to challenge poor performers, something that was time consuming to do beforehand.” Sensio Lighting really is shining a light on inventory with Netstock.

“Reacting to stock-outs before they occur was something that was almost impossible to do without Netstock.” – Nicola Ormsby, Supply Chain Planner.
